

## Quality assurance in e-courses

Viljo Vabrit  
EAU

## Quality standards used in Estonian e-University

## E-course elements

- Info page /homepage
- Manual of the e-learning environment used
- Course outcomes
- Course flow
- Study materials
- Where to get additional material
- Communication tools
- Assignments
- Evaluation tools and assessment rules

## Facilitation of the course

- The study process must take place according to the course flow
- A calendar tool is used to give a better overview of the study process
- The study process is supported by discussions on the forum
- Also answers for technical questions can be found on the forum
- Students must have a chance to follow their study progress on the e-learning environment
- The student tutor ration should be 20 to 1

Thank You!
