

# Outdoor Recreation Planning and Design Course, 4 ECTS

**Venue:** Latvia University of Life Sciences and Technologies, Valdeka palace, Riga street 22, Jelgava, Latvia

**Dates of virtual part:** 17.02. -3.03. 2025

**Dates of physical part:** 3-7.03.2025

## **Description of the course**

The virtual part of the course will consist of home tasks to prepare for the course, online meeting, introductions, and presentations.

The main activity of the course is a practical workshop about recreation planning and design of a certain territory. A field trip to show good practice examples in nature territories and a visit for site analyses will be undertaken at the beginning of the course. Students will conduct site analyses and develop ideas for recreation plans for a certain territory. They will work in mixed groups, and discuss and present the results at the end of the course.

## **Learning outcomes**

The study course aims to acquire the basic principles of territory analyses and planning for outdoor recreation design.

## **Target group and any prerequisites**

Landscape architecture and planning, forestry, recreation planning, environmental science study program bachelor and master students.

## **Practical information**

Student dormitory in Jelgava is available, Liela Street 19, Jelgava.
